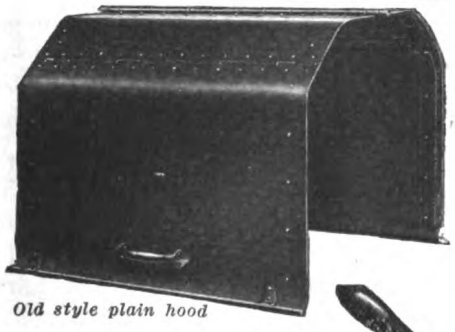
MAYO

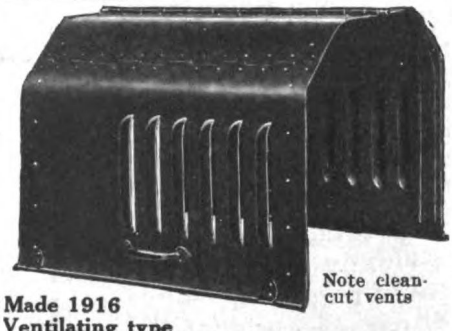
Is the Final Word in Efficient, Paying Garage Equipment

MAYO LOUVRE CUTTER



Old style plain hood

Overhauling, for the next 4 months, means getting ready for summer. Your service is incomplete unless you get orders to ventilate every old-style plain hood. With the MAYO Louvre Cutter, 15-minute jobs pay $1.50 to $2 per car. Clear profits for service your customers want. Others are making big money.



Note clean-cut vents

Made 1916 Ventilating type with MAYO LOUVRE CUTTER in 15 minutes

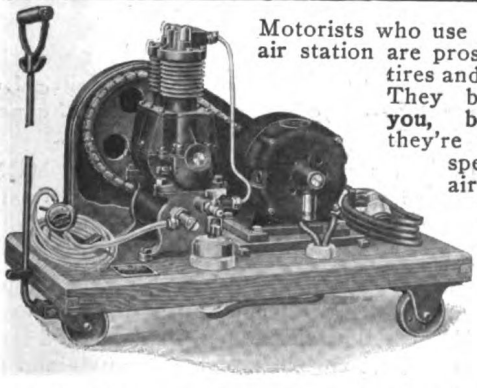
One man made $80 the first week with his MAYO Louvre Cutter, freeing owners from overheated motors and hot feet.

$1.50 to $2 Profits Per Car

Sold on 10-Day Free Trial

One man operates MAYO Louvre Cutter, while customer waits, if necessary. Can't mar varnish or crack metal. 4 jobs an hour—for cash.

MAYO ELECTRIC GARAGE PUMP



Motorists who use your free air station are prospects for tires and supplies. They buy from **you,** because they're there to spend. Free air pays for itself in "extra business."

MAYO Electric Garage Pump gives best service. Portable or wall equipment. Includes every modern improvement. Withstands hardest service. Gives continued satisfaction and returns big profits from better paying trade. State current and voltage when ordering. Price, **$60.00.**

Don't get "in bad" with customers who try to use your air tank, only to find it empty or run down. They go away, and stay.

MAYO AIR COMPRESSOR

—makes it easy to keep the pressure up. Low operating cost. **Guaranteed pressure** of 200 lbs. Made especially for use with automobile tires. Pumps clean, pure air only. Gives absolute satisfaction. Pays for itself in service. Price complete, **$25.**
